

Agency Compliance Audit

Real Coach offers an independent and confidential Agency Compliance Audit specific to your Agency.

What is an Agency Compliance Audit?

An Agency Compliance Audit is a comprehensive independent audit service aimed at helping your agency to meet current legislative requirements and best practice standards.

An experienced Real Coach auditor will come to your office and examine a sample of files, policies and procedures across the areas of General Agency Management, Residential Sales and/or Residential Property Management.

You will then be issued with a detailed report that outlines identified incorrect practices or inconsistencies within your agency and our practical recommendations for addressing these issues.

Why do you need an Audit?

Compliance is a minefield that very few agencies have been able to successfully navigate. Most agency principals want their office to be compliant but don't know where to start or what's right anymore. That's where the Real Coach Agency Compliance Audit service can help.

Our auditors are experienced in both compliance and current real estate practices. We know what to look for and how to fix it. Our recommendations are practical and achievable.

Audit Options

We know that not all agencies are the same, so we provide three audit options. You can select the option that best suits your agency's needs and budget.
